

## PRESS RELEASE

For Immediate Release....September 14, 2011

The directors of GNP Consulting Ltd (GNP) are pleased to announce a new trademark for the business, "GNP GRAIN SOURCE" as illustrated above.

The new trademark better illustrates to the industry the company's strategic alliance and ability to source and ship significant volumes of Western Canadian grain.

GNP General Manager, Perry Pellerin stated "Our trademark helps send a clear message that we are a significant shipper of grain in Western Canada." Mr. Pellerin also stated "That GNP Grain Source represents one of the top 5 shippers of Western Canadian Grain in Canada."

GNP GRAIN SOURCE TM is a consortium of six farmer owned, independent grain shippers and handlers strategically located across Western Canada. The collective inland storage and handling capacity of GNP Grain Source is 370,000 metric tonnes and an approximate throughput of 2 million metric tonnes.
